# Bytey Wolf

Very fierce and very fluffy

My Skills

- Programming in low-level, embedded and high-level scenarios
- Can make use of very little resources creatively
- Can work under pressure and adapt to the changing pace of a work environment
- Always having a plan B in case things go wrong
- Being very fluffy :)

My Experience

- ***Awoo Corporation*** **(2024 - present)**
  Sr. Engineer

- **Internet Door (2021 - 2023)**
  Founder

Responsible for some of the biggest innovations

- **Great Elevators (2019 - 2021)**
  Installation Expert

"Very talented and smart guy. Unlike other ambitious folks, he actually gets everything done." — *Gray Wolf the 55th, Awoo Corp. CEO*

Special points of interest:

- Every time I break something, I actually fix it
- I never learn things the way you're intended to. I experiment with what exists, and if it doesn't work, I try another way.
- My second favorite animal is the fox. What does the fox say?
- I am very bytey
- I am responsible for the construction of several cities
- I am legally required to disclose that most information in this resume is made up and is presented in a comedic fashion for the purpose of fulfilling lore
